Jewel CABINET REFACING

ESTABLISHED 1999

MAPLE LAKE, MN

Highest Quality Cabinet Refacing & Custom Cabinetry

www.jewelcabinet.com • 763-286-3232

Transform your kitchen into a more functional, beautiful space ...in just one week!

Jewel Cabinet Refacing takes pride in our workmanship and quality. We offer an extensive selection of door styles, wood species and stain colors. Your kitchen will have a new look from top to bottom, including new hardware, hinges and new upper & lower molding. If you're in the market for new countertops, we can help with that too!

WE USE 1/4" SOLID WOOD FACING - No Laminates or Veneers!

BEFORE

Transformations Made throughout this Kitchen:

- Granite Countertops
- Full Extension Ball Bearing Drawer Slides
- New Hardware
- New Crown Molding

- Corner Lazy Susan Cabinet Revised
- Trash Roll-out and Drawer Added
- Glass-Front Door Replaced with Solid Wood

BEFORE

- Custom Cabinets Left and Right of Pantry
- Pantry Roll-outs
- Desk Transformed into a Functional Cabinet with Roll-outs and Full Extension Drawers

BEFORE

- Microwave Shelf Transformed into Enclosed Cabinet
- Corner Lazy Susan Cabinet Revised
- Combined Drawer Stack
- Converted Drawer Stack into Cabinet Space
- Vent Hood Space Resized for Microwave (Adjacent Page)

FINISHING

Using a professional spray booth, three coats of high quality, precatalyzed lacquer are applied to the product.

A light sanding between each coat ensures a smooth finish that surpasses the quality of most cabinet shops - looking great for decades to come!

Because most of the work is done at our custom cabinet shop, we complete most projects in less than a week!

BEFORE

OPTIONAL FEATURES UTILIZE YOUR SPACE

- Replace Existing Drawers with Larger, More Efficient Ones
- Add Roll-outs within a Cabinet for Easy Access to Contents
- Replace Wasted Cabinet Space with a Drawer Stack
- Replace a Lazy Susan with Functional Cabinets
- Add a Wine Rack/Glass Holder

COUNTERTOPS

- Wide Selection of Granite, Quartz and Laminates
- Replace Your Sink with an Undermount Model
- We Integrate Closely with Reliable, Reputable Vendors

*Love your countertops but hate your cabinets?
No problem, we work around them!*

PAINTED KITCHENS

For your new doors, a process called RTF "Rigid Thermal Foil" is used. Heat and pressure bond a PVC film to a substrate, creating a very durable and low-maintenance material, emulating real painted wood surfaces.

The base/shells of the cabinets are properly prepped and primed. Two coats of electronically color matched, high quality paint are then applied for a beautiful, professional finish.

DURABILITY

Your new RTF doors are guaranteed not to crack, shrink or peel and are extremely durable and easy to clean. Painted doors and veneers simply won't hold up to changing climates and normal wear and tear.

We can professionally paint your cabinets, or you are welcome to paint them yourself.

UTILIZE YOUR SPACE

The same space-utilizing features (drawers, rollouts, etc.) and custom cabinetry options can also be applied to RTF projects, as well as new countertops!

CUSTOMIZE

- Dozens of Colors and Styles to Choose From
- Vast Selection of Hardware
- Combine RTF with Wood Refacing, or Another RTF Color for an Attractive, Contrasting Effect

Trust your dream kitchen renovation to Jewel Cabinet Refacing for a fresh, new look and functionality without the "new" price tag!

CUSTOM TO MATCH

We not only reface, but can also add new custom cabinetry to match the new facing. Because we use 1/4" thick solid wood facing on the fronts of your existing cabinets and 3/4" solid wood on the fronts of our custom cabinetry, they match perfectly!
